

MoH beefs up preparations for universal healthcare system, carries out 300,000 surgeries for patients on waiting lists

The Ministry of Health officials have been directed to follow up on the ongoing construction works and upgrades across hospitals, ahead of the launch of the universal healthcare system. Separately, the ministry announced that about 300,000 surgeries were carried out for patients on waiting lists since the presidential initiative was launched in July 2018.
