

PM follows up on universal healthcare system preparations

The prime minister has said that an awareness campaign about the universal healthcare system will be launched in Port Said soon. The health minister, for her part, indicated that 26 healthcare units in Port Said are ready, pointing out that the construction progress in the nine remaining units ranges between 92% and 98%. She noted that 10 hospitals will be providing services in Port Said. The minister also said the hiring process for the medical staff required for the project is in progress.
