

### **Health Insurance Organization pricing plans for 45 hospitals**

According to the World Health Organization, the global cancer burden is estimated to have risen to 18.1 million new cases and 9.6 million deaths in 2018. One in 5 men and one in 6 women worldwide develop cancer during their lifetime, and one in 8 men and one in 11 women die from the disease.

The minister of health has announced that about 300 family doctors have applied for jobs within the universal healthcare system, adding that the ministry seeks to offer training in the UK for doctors who will join the new system.

The Health Insurance Organization has approved the pricing plans for services offered by the 45 hospitals affiliated with the Specialized Medical Centers after increasing funds paid for services covered for the first time in 17 years.
