

EIPICO's production, sales boom in Q1 2019: chairman

Egyptian International Pharmaceuticals Industries Co. (EIPICO) production increased by 42% in the first quarter of 2019 while sales hit EGP 895 million. The number of packages manufactured by the company also increased by 33.9% to 97 million, which is a 3.7% market share. The company plans to add 15 countries to its current 65 export destinations within three years. EIPICO is Egypt's top drug exporter with a 30% market share.
