

Universal healthcare system bodies hold first meeting and prepares to launch it in Port Said

During a meeting with Finance Minister Mohamed Maait, Health Minister Hala Zayed discussed training for physicians and said that 20 primary care units in Port Said have been completed. The meeting also touched on the coordination mechanisms of the three bodies of the universal healthcare system: healthcare, accreditation and health control, and funding. Zayed offered statistics on the hospitals that will be joining the system. She indicated that there is a shortage of doctors, mainly in the remote areas of the governorate. She suggested offering training and financial incentives to the doctors who will join the new system.
