Egyptian Society of Women's Health organises 'Breast Cancer Awareness Marathon' for Pink October

The Egyptian Society of Women's Health (ESWH) - in collaboration with the EgyRunners team - organised a marathon day to raise awareness of the dangers of breast cancer, the need to care for women diagnosed with cancer at advanced stage, the importance of early detection and the role of sport in increasing cure rates and reducing the risk of suffering from

the disease. The marathon began with runners gathering at 7am in the Korba area in front of the Horreya Mall, and prepared for the start of the race at 7:30 am sharp. Participants ran 5km from and to the starting point, and the race was followed by a celebration for breast cancer survivors and marathon winners received awards for their day's achievements.
