EGYPS praises women's role in energy sector

MINISTER of Social Solidarity Ghada Wali yesterday praised the focus on the role of women in the energy sector at the Egypt Petroleum Show (EGYPS) 2018 Conference.

A statement released yesterday by the ministry said that the EGYPS forum is aimed at supporting the leaders of the petroleum sector, and its last session was dedicated to honouring the leading women in this sector.

Minister Wali confirmed the importance of celebrating the success

achieved by women in all fields, especially in the field of energy, because it is an unconventional field. "It is important to increase women's participation in the labour market," she said.

The government, Wali added, has to facilitate employment conditions and create more opportunities that include social protection for women in all sectors.

"EGYPS 2018" is the main platform for reviewing the achievements of the petroleum sector in Egypt.
