Big 5 comes to Egypt in Sept.

DMG events, a leading international exhibitions company based in Dubai, UAE, announced the educational workshop agenda for construction professionals at the first edition of The Big 5 Construct Egypt. The event, set to take place at the Egypt International Exhibition Centre (EIEC) on 18th – 21st of September 2018, is free to attend.

The Big 5 comes at a time when Egypt is witnessing a construction boom with more than \$335 billion in active projects. With mega projects in the pipeline, Egypt is fast becoming a lucrative construction and real estate hotspot.

The event also incorporates a mission to educate construction industry professionals, as audiences including architects, engineers, consultants, developers and contractors will find numerous ways to advance their knowledge at 40 Continuing Professional Development (CPD) certified workshops that will run parallel to The Big 5 Construct Egypt exhibition.

The workshops will address a wide range of salient topics including new policies and reforms, future trends and technologies, BIM and project management, sustainability and technology, architecture and design, contract and facilities management, building envelope and special construction as well as urban development and the public realm.
